

The Music listed in this catalogue is for the standard 31 note scale. It is also suitable for the 26 note organs produced by Jäger and Brommer, Peter Trueman, Alderman and Davis, and some others. There is also listed at the end, music for organs of other scales: 33 Trumpet, 42 note and 45 note, as well as Duets for two Organs, and for an organ playing with a friend (who will be playing the flute, or violin or the church organ, or singing).

The rolls are accurately punched on a plastic "paper", which is tough, difficult to tear, and stable in damp conditions.

The copyright of all these Arrangements is held by Ian Alderman. Buying a Music Roll carries the implicit agreement not to copy it, or allow it to be copied. It may not be re-sold other than with its original label and packaging.

When ordering Music Rolls it is **important** to give the following information:

- 1: the Music Roll Number
- 2: the Title of the roll
- 3: the maker and type of organ

You are asked to pay **on receipt** of the Roll.
